# MATRIOSAC 3

## COMPACTABLE BAGS FOR THROW GEAR

The MATRIOSAC is a round, foldable set of bags that can hold throwlines and throwbags. This storage solution limits the twists and knots in the throwline. Its design is inspired from the Russian Matriochkas dolls: two circular bags that fit in each other and can be folded.

**2 IN 1**  
Two throw sets in the same bag

**DESIGN**

**COMPACT AND PRACTICAL**  
Large diameter / Easily folded  
Large bottom pocket for extra gear

**STRONG**  
Double wall / Reinforced bottom  
Waterproof

### DESCRIPTION

The MATRIOSAC can hold two sets of throwgear, i.e. 2 throwlines and 4 throwbags. It is equipped with a large pocket under the blue bag, for extra gear (cambium saver, throwbags, carabiners etc.). The line is carefully stowed away to avoid twists and knots. Folding the bag holds the throwline flat at the bottom. Two Velcro straps hold the set folded together.

Once it is open, the MATRIOSAC is stable, held on the ground by the bags and accessories held in the bottom pockets that act as ballast. Its round profile means a lesser wind surface area. The bottom is reinforced and waterproof - it is therefore stronger and offers the gear a better protection against ground moisture. Its zippers also are very strong. Each bag can be carried with its handle. Folded, the MATRIOSAC can be hooked and carried with its side handle.
